# BISHOP CANNON DEFENDS ACTS BELIEVE NATIONWIDE TONG WAR NEAR

## TONG GUNS BLAZED IN CHICAGO WHILE SITUATION TENSE

### LEADERS OPPOSING TONGS ASK POLICE ASSISTANCE TO STOP KILLINGS

CHICAGO, Aug. 5. (AP)—Tong guns blazed in Chicago yesterday and the echo, heard in Chinese sections all over the United States, brought out apprehensive police details attempting to stop spread of the dread feud.

Chicago's Chinatown was thrown into confusion when a Hip Sing Tongman, Yee Sue, was shot and killed in a crowded street and again last night when Kar Leong Wong was shot and probably fatally wounded. Before the Yee Sue shooting, Wong was a member of the On Leong Tong and was working on the theory his shooting was in retaliation for the slaying of Sun. The mysterious "graveyard" slayings through which Tong members were informed of happenings in other cities evidently was functioning well for police in other cities reported streets in Chinatowns deserted and tense and uneasy.

Two shots were fired at Chinese Boston yesterday, and although trouble was believed to have been the result of a gambling quarrel, scores of plainclothes men were stationed in the Chinese section and sightseers kept out.

Joe Tuck, member of the On Leong, was arrested upon the identification of a Hip Singer. Ding Wang, another Tong member, was shot, but police doubted he was the actual slayer.

Nine Chinese were held by police today in connection with the Wong shooting.

Seek Police Protection.

After the disturbances started, Frank Moy, president of the On Leong organization, and Lee Long, acting head of the Hip Sings, appeared at the detective bureau and asked help in preventing further trouble. At their own request they are both given detective escorts. Both Tong leaders admitted the war was on and said they feared a repetition of the bitter warfare that claimed more than 70 lives in the nation-wide Tong war of 1925. The recent troubles are believed to have started in New York when three members quit the On Leong Tong and joined the Hip Sings in violation of an agreement between the Tong. After the protest by the On Leongs, the three men were dropped from membership in the Hip Sings.

One Dead in Newark.

NEWARK, N. J., Aug. 5.—Louis Ga Fung died today from bullet wounds, the victim of what police said was a nation-wide outbreak.

## THREE KANSAS CITY FIREMEN KILLED IN DRUG STORE BLAST

### FALLING WALLS CAUGHT MEN; TEN OTHER PERSONS INJURED AT SAME TIME

KANSAS CITY, Aug. 5.—Three firemen were killed and ten persons injured here today by falling walls of a burning drug store in a residential district.

The firemen were killed when an explosion occurred as a hose was being dragged into the structure. Phil Hahn, a nearby resident who discovered the fire, said the floor of the store appeared saturated with oil.

The dead firemen were Frank Loner, Roy Rutherford and John Moore. Captain Emmett Fitzgerald, at the nozzle of the hose, was dragged to safety by his comrades after he was caught and imprisoned by falling timbers.

Those injured, none believed seriously, were firemen and persons watching the blaze at Sixty-ninth street and Prospect avenue.

An explosion was believed to have started the fire. The building was destroyed.

ORLANDO BANK CLOSES.

ORLANDO, Fla., Aug. 5.—The State Bank of Orlando and Trust company, capitalized at \$100,000 and said to have been the largest financial institution in Orange county, failed to open today.

## PRESIDENT PORTES GIL OF MEXICO TO SUMMARIZE WORK OF MEXICAN ADMINISTRATION

MEXICO CITY, Aug. 5.—(AP)—President Portes Gil will summarize the achievements of his administration in a message to congress at the opening of the regular session Sept. 1, five months prior to the date on which the provisional chief executive is to turn over the reins of government to his successor, to be chosen in the national elections Nov. 17.

In his message the youthful president, now in his early thirties, will lay stress on several of the accomplishments of his nine months administration, which has been marked by outstanding constructive endeavors as well as one of the most turbulent periods in recent Mexican history.

He will embody in his message the official report of General Plutarco Elias Calles on the campaign against the Escobar rebels in March and April of this year, giving his predecessor in office the lion's share of the credit for the rapid defeat of that movement.

The report will give official figures on the casualties and financial losses sustained during the rebellion and reveal other aspects of the revolution as yet unpublished.

Going into another phase of his government's activity, the president will deal with the settlement of the three-year church-state controversy, announced June 2, in simultaneous statements by the head of the government and Archbishop Leopoldo Ruiz Y Flores, papal delegate to Mexico. He will lay stress on the pacification of the country as a result of this settlement, which brought about the end of guerrilla warfare waged by Cristero bands over a period of some 35 months, and will set forth that the country is at peace, ready to devote itself to the gigantic task of reconstruction.

Among other accomplishments of his administration, the president will refer to the cessation of government control over the national University, which was made an autonomous institution under joint student-teacher management by presidential decree a few weeks ago.

He will go into detail on the anti-alcohol campaign which he personally initiated and which now is being conducted by a national committee constituted under his direction. The campaign, the president will point out, is based on "persuasion" rather than prohibition, the aim being to interest the people in uplifting diversions and productive occupations and thus wean them away from the "pulqueria" and the drink habit.

There has been some difference of opinion as to the real nature of the campaign, inasmuch as the

## THE HAGUE, Aug. 5.—(AP)—Representatives of six governments gathered here today prepared to inaugurate tomorrow a conference which would write a closing chapter to much of the post-war financing negotiations.

The conference is that which signing of the Young reparations agreement on June 7 at Paris made necessary. That four months long conference gave a plan for liquidation of German war debt to the world war, but left a future conference—that which begins here tomorrow—in its application.

The problems in application involve political considerations of financial exigencies and the matter of making date to meet nor could attempt to meet without endangering the work for which it did have a mandate.

Uppermost among the problems likely to come before the conference is the question of reparations. Germany at last is in a position to demand a modification of the military control which the allied countries imposed in the years after the armistice. France proposes to substitute a kind of "invisible control" which is nearly as effective as the Berlin act of occupation. The question may be fought out and brought to tentative settlement here within the next two weeks.

RASKOB ACQUIRES INTEREST

NEW YORK, Aug. 5.—(AP)—John J. Raskob has acquired a substantial interest in the Aero Supply Manufacturing company. It was announced today, which, with the holdings of bank interests associated with the management, represents a majority interest in the company, a large manufacturer of aeroplane hardware.

## SECOND CROSSING MADE IN SIXTEEN HOURS BETTER TIME

### FACED ALL KINDS OF WEATHER; STARTS RETURN TRIP WEDNESDAY NIGHT

NAVAL AIR STATION, LAKEHURST, N. J., Aug. 5.—(AP)—The German dirigible Graf Zeppelin was safe in port today after its third crossing of the Atlantic and day after tomorrow it will start back for Germany, the first leg of a journey around the world.

Graf Zeppelin, largest of airships, left Friedrichshafen at 9:29 P. M. Wednesday night and was "willed" to the ground here at 8:48 last night after 95 hours and 19 minutes in the air against 111 hours for the westward crossing last year, although it was not all favorable weather this time.

"There was every kind of weather," Dr. Hugo Eckener, commander of the ship, said on landing. "It was a very interesting flight, we had no snow and no hail, but there was a storm cloud at the start and strong head winds for the last 14 hours."

"We had a very enjoyable time," he told reporters. "At night we danced and sang and drank wine."

## BELGIAN KING SETS ASIDE LARGE AFRICAN PRESERVE IN INTEREST SCIENTIFIC WORK

WASHINGTON, Aug. 4.—(AP)—King Albert of the Belgians, in the interest of scientific research, has decreed that a large area be set aside in the Congo between Lake Kivu and Lake Edward and comprises approximately 800,000 acres. Administration will be in the hands of a commission on which King Albert has already appointed two Americans, Dr. John D. Merriam, president of the Carnegie Institution, and Dr. Henry Fairfield Osborn, president of the American Museum of Natural History.

A decree by King Albert prohibits under severe penalties the killing, capture or molestation of any wild animal within the area, including those which are considered dangerous. It is also prohibited to destroy or remove any tree or wild plant or to change in any way the aspect of the landscape. The sanctuary will be policed by Belgian Colonial officers and no one will be allowed to enter without a special permit.

The site was selected by the late Carl Akeley, eminent naturalist and explorer, who recommended that a sanctuary for gorillas be established there for the preservation of that rapidly disappearing species. King Albert, in adopting the idea, enlarged upon it, and several American scientific institutions are contemplating the sending of expeditions to take advantage of the opportunities thus afforded.

Louisiana Prison Break.

BATON ROUGE, La., —(AP)—Six convicts escaped from Angola penitentiary today but were recaptured during the morning, according to reports received at the general penitentiary office here at noon.

No details of the break were available at that hour. Warden J. C. McClanahan was on the scene of the attempted escape making an investigation, the officers here said.

## PITTSBURGH, Aug. 5.—(AP)—A summons for Harry Richmond, New York night club manager, was made today to be the fiancée of Clara Bow, motion picture actress, was issued in federal court today in the suit brought against Richmond by Ellen Franks of Pittsburgh. Richmond is alleged to have been in the city last Monday of September or file an affidavit of defense.

According to papers filed by Miss Franks' attorney, the woman will seek damages for alleged assault and battery. Miss Franks was said to be a dancer, but she was not known in theatrical circles here and could not be found.

In the group are S. W. Stratton, president of Massachusetts Institute of Technology; George Eastman, Henry Ford, Thomas A. Edison, Col. Charles A. Lindbergh and Dr. Lewis Perry, president of Phillips Exeter Academy, fashionable boys' school.

## Americans Seek In Vain For Tomb German Unknown

BERLIN, Aug. 5.—(AP)—Representatives of the American veterans of foreign wars today sought in vain for the tomb of the German Unknown Soldier with the purpose of being the first Americans since the world war to pay tribute to the German war dead.

Berlin is, however, probably the only European capital without a monument to the "Unknown Soldier" and the Americans laid their wreath on a statue to Frederick the Great.

The veterans were warmly received by German officials. They will be the first Americans to pay tribute to the German war dead at Warsaw Wednesday.

## EVIDENCE PILES UP THAT HOOVER PLANS TO MEET OPPOSITION

WASHINGTON, Aug. 5.—(AP)—Evidence continues to pile up in congressional circles that the approaching end of the summer recess of the senate will mark the beginning of a vigorous attack on President Hoover's action suspending construction of three ships of the 15-cruiser program which were to have been laid down this fall.

The president's decision, announced after similar action had been taken by Prime Minister MacDonald, has again been brought under severe senatorial criticism in a statement by Senator Swanson of Virginia, ranking democrat of the naval affairs committee, showing that he shares the opposition to the president's course expressed in more or less milder language by Chairman Hale of the senate and Chairman Britten of the house naval committee. It also served to emphasize apprehension in administration administration circles over the effects a prolonged senate debate on his authority to take such actions might have on the current naval reduction negotiations.

Swanson bluntly described the suspension as "contrary to law" and suggested that the president would set a good example if he should reconsider this matter and state that he will proceed to construct these three cruisers as directed unless congress should repeal the direction given him.

## SUSPENSION OF CONSTRUCTION ON THREE CRUISERS STIRS SENATE IRE

WASHINGTON, Aug. 5.—(AP)—Evidence continues to pile up in congressional circles that the approaching end of the summer recess of the senate will mark the beginning of a vigorous attack on President Hoover's action suspending construction of three ships of the 15-cruiser program which were to have been laid down this fall.

## SINGER TO MEET CHOCOLATE

NEW YORK, Aug. 5.—(AP)—The best "natural" match of the New York outdoor season was signed today when Al Singer, Bronx junior lightweight, and Kid Chocolate, sensational Cuban bantamweight, agreed to box 12 rounds Aug. 29 at the Polo Grounds. The New York favorite agreed to weigh 128 3-4 pounds or less.

Long launched into a long technical explanation of the tests. Seidel questioned Long as to the accuracy of the test by which he said he determined that spots on Dr. Snook's clothing, the hammer with which he is alleged to have killed the girl and on his automobile were covered with human blood.

Authorities Differ.

"Isn't it a fact," Seidel asked "that the leading authorities are at wide variance in their opinion as to the accuracy of this test when the test is delayed several days particularly in warm weather?"

"The test is accurate so long as there is a sufficient amount of blood to make the test," Long replied.

Seidel took Long through a close examination of the tests he made on two dogs to determine their re-

## METHODIST LEADER LAYS TROUBLES TO POLITICAL ENEMIES

### DEFENDS HIS POLITICAL ACTIVITY AND ESSAYS TO SPEAK FOR DEMOCRATS

WASHINGTON, Aug. 5. (AP)—The answer of Bishop James Cannon, Jr., of the Methodist Episcopal church, South, to various charges published against him recently was made available to newspapers today in a 15,000-word statement.

He went at length into the charges of profiteering in flour during the war, criticisms of his stock market transactions, the charge he used funds of the Board of Temperance and Social Service of his church to further the election of President Hoover through organization of the Anti-Smith Democrats of Virginia and the contention he has improperly used his church office for political purposes.

Denies Wrong-doing.

He restated his denials of wrong-doing in every instance, regarding opinion to Former Governor Alfred E. Smith, democratic candidate for president, Chairman J. J. Raskob of the democratic national committee, and declared: "Either Raskob must be discarded or repudiated or democratic leaders are of necessity permanently out of the party."

The bishop also said he had been attacked by Senator Carter Glass, "a man of no reputation and no influence," and that he had been "vilified" in the Richmond auditorium.

"I was using my humble efforts in the interest of prohibition when Dr. Cannon was the paid agent of the Anti-Smoke League," he said. "I denounced this effort to belittle and besmirch my prohibition activities as absolutely false, and replied in the same Richmond auditorium that I had never received one dollar in my life for services as a prohibition worker for forty years, and that during the statewide fight, while I was campaigning the state from one end to the other and giving practically every bit of my time without any compensation, Senator Glass was contenting himself with one or two speeches and some editorials. Although I demanded a retraction of this falsehood, Senator Glass has never made the fairness or the manliness to make retraction."

Charging efforts at "political intimidation" against him, he asked: "Cries Persecution."

"Is not the concerted effort of Raskobism to destroy my influence with the people of Virginia in the approaching election? Will the people of Virginia approve or disapprove of these attacks upon my reputation and influence by these political assassins?"

The answer is described as a "statement by Bishop James Cannon, Jr., concerning the various charges against him."

## NEGRO SLAYER OF FORT WORTH POLICEMAN IN TARRANT COUNTY JAIL

CHICAGO, Aug. 6.—(AP)—Detective Sergeants Fred Sack and John Hanrahan asked today that \$1,000 reward due them for capturing Tenola E. Moore, negro, wanted for the slaying of Policeman George Turner of Fort Worth, Texas, be given the widow of the slain officer. The two detectives arrested Moore last Saturday.

FORT WORTH, Aug. 5.—(AP)—Tenola Moore, 25, negro slayer of Policeman George Turner, is in the Tarrant county jail.

He has made a statement to county authorities admitting the slaying of Turner on the morning of May 20, 1928.

The negro was brought to Fort Worth Monday morning from Denison by automobile.

## PURDON PEWEES WIN DECIDING GAME FOR COUNTY CHAMPIONS

FAST GAME OF BALL STAGED  
BETWEEN BOYS' TEAMS  
HERE SATURDAY

In one of the fastest baseball games played off in the Municipal park this year, the Purdon Pewees defeated the Richmond Kids team, 6 to 3, Saturday afternoon when Johnson, Purdon tosser, was stingy with hits, and allowed only seven singles during the contest. Bunched hits coupled with two bad mis-cues, allowed the Richmond Kids to cross home plate three times in the eighth inning.

In the fourth inning, Johnson turned in a great pitching exhibition by retiring the side on five pitched balls.

Johnson, besides pitching a great game, was the leading hitter of the contest, securing three hits, including a double, in five appearances at the bat.

Paul Rogers, Pewee short fielder, was the leading base stealer of the contest by pilfering three bases, and in the first inning after securing a single, stole second and third, scoring on a hit.

As a result of the victory Saturday afternoon, the Purdon Pewees gained the deciding game of an eight game series, with one game ending in a tie.

## FORT WORTH GOOD WILL AEROCADE TO VISIT CORSICANA

Chairman W. C. Stroube of the aviation committee of the chamber of commerce is expected to give attention to plans for entertaining the Fort Worth good will aerocade here in September, and to sending a representative to the airport opening at Sweetwater when it returns to the city early next week.

Corsicana is invited to join in the Fort Worth cruise on arrival here with one or more ships in a letter received at the local chamber Friday from D. W. Carlton, in charge of aviation activities of the Fort Worth Association of Commerce. Mr. Carlton explains that full details of the second annual tour by air of Fort Worth business men will be expected within a few days. It is expected there will be some 20 ships in the formation with 40 or more business men aboard, and that Corsicana will be one of the first ports of call.

An unusual feature of the Sweetwater airport opening celebration on August 10 and 11 will be four flights daily by a glider—a motorless plane—by national aviator, Howard expert. Prizes totaling \$1,500 will be offered and members of the local chamber's aviation committee are promised special courtesies. Some weeks ago Sweetwater officials requested detailed information on the spring celebration when the airport was opened. The Sweetwater field contains 280 acres, a 118x100 foot hangar with modern airport facilities.

May General "Sky Fleet". Samuel B. Botsford, general manager of the Bullard, N. Y., chamber of commerce, in a letter to the local secretary Friday explained that it may be possible for Corsicana to obtain a stop over here on the "Sky Fleet" which recently left Buffalo for a 50,000 mile tour of the United States, Mexico and Cuba.

The "Sky Fleet" consists of eight Aristocrat three-place cabin monoplanes and is said to be on the greatest commercial airplane tour in the history of flying.

Mr. Botsford explains that the personnel of the fleet is composed of picked army fliers. "Their flying fleet in formation is something never done before by cabin monoplanes and is a sight worth seeing. This tour is the greatest and most talked of event in aviation and is receiving more publicity than any other aeronautical development in the world."

Roy Christian of the local chamber became acquainted with Mr. Botsford in connection with the All-Texas Good Will Tour.

HERE FOR OPENING.

R. F. Joyner, Fort Worth, of the Montgomery-Ward Company, organization of the Corsicana store, remain until after the opening of the Corsicana store, Saturday, August 10.

Mr. Joyner will be the manager of the Corsicana store which will open about Sept. 15.

GRAVE DIGGERS MAY STRIKE.

NEW YORK, Aug. 5.—(AP)—Fear of a general strike that would halt all funerals in the city today spurred state labor department officials in their efforts to settle the labor dispute between grave diggers in Calvary cemetery and their employers.

## Roaming the Realm of County Sports

By DELMORE OLSEN.

A three game series between the Magnolia-Millers, claimants to the title of the best team in Navarro county, and the Bazette nine, which has been accorded that title for several years, will be played at the Municipal Park Wednesday, Thursday and Friday of this week. The games are scheduled to be seven inning affairs.

Considerable interest in the coming series has been shown by baseball fans and the consensus of opinion is that the series will be hard fought with the county title at stake. Both the Mag-Millers and Bazette nines have a number of followers and the games should be well attended.

The spell that the Bazette nine has cast over the Whites Chapel nine during the entire year has been evident in evidence in their game Friday afternoon, it was stated by those witnessing the contest. The Whites Chapel nine was leading the boys from the eastern portion of the county by a half of the eighth inning when a muffed fly ball in center field allowed two runs to cross home plate.

It is really a pleasure to watch the youngsters composing the Purdon and Richmond kid teams in action. In their game Saturday afternoon, the youngsters played a sterling brand of baseball and the time of one hour and 20 minutes.

If some of the players on either team continue to improve, by the time they are in high school they will be high school players. During the contest several splendid stops and examples of quick thinking were displayed. The kids were death on fly balls, not one during the contest falling for a hit.

The Waxedhachle All Stars failed to flash a brilliant brand of ball during the easy victory to the Magnolia 9 llers Sunday afternoon. The visitors secured 11 hits out of 12, but the home team pulled the All Stars out of the game by hitting them in the fourth and fifth innings. The visitors were very scratchy and could have been fielded easily if the fielders for the Mag-Millers had not pulled the All Stars out of the game by hitting them in the fourth and fifth innings. The visitors were very scratchy and could have been fielded easily if the fielders for the Mag-Millers had not pulled the All Stars out of the game by hitting them in the fourth and fifth innings.

Paul Rash, who has had the unhappy faculty of hitting the high, wide and handsome—right into some fielder's hands, came through with four hits in five at-bats in the victory for the local club. The husky first sacker was "right" and easily carried off batting honors.

It was announced at the game that the Bazette team in a three-game series Wednesday, Thursday and Friday of this week at the Municipal park. The games will start at 5:30 o'clock, and will probably be seven inning affairs.

## METHODIST LEADER LAYS TROUBLES TO POLITICAL ENEMIES

publications which have been made concerning him by 'wet' and Roman Catholic and other newspapers, throughout the country, and its extent is explained with the assertion:

"No article or ordinary length could answer the continuous sweeping slanderous attacks made, not only upon specific acts, but upon a manner of life and a record extending over forty years."

Under Constant Attacks.  
It begins with a series of quotations from denominational and secular newspapers, an "open" on to say that "since June 28, 1929, when I signed the call for the southern democratic friends of prohibition to meet in Asheville, North Carolina, on July 19th, to take steps to defeat the wet campaign, I have been the subject of constant attack by the 'wet' secular and Roman Catholic press."

Of the food profiteering charge, the Bishop says, "of course, this had no bearing whatever upon the betrayal of the democratic party on the prohibition question by Alfred E. Smith, but slander is one of the favorite weapons of unprincipled politicians."

He declared he tried "vainly to find someone who had publicly sponsored the charge," and then cited the statement of the trustees of the Blackstone (Va.) college for girls saying they were "fully acquainted with the facts" concerning his purchase of flour in 1917 while President of the institution to safeguard its food budget for the approaching term.

The attempt at "political intimidation" on the basis of his stock market transactions, he declared, was begun during the 1928 campaign but was discontinued for several months until his activities in the current Virginia campaign began.

Denies Political Activities.  
"I am being continually attacked as using my Episcopal office for purely political purposes," he said. "This statement is flatly false. I have never desired, nor have I ever had political control of Virginia. I have, as the representative of the moral forces of the state, insisted upon the passage of certain legislation, and in the selection of officers who favor and maintain that legislation, but I have never at any time interfered in any matters pertaining to purely political activities."

Again, assailing the attitude of various newspapers toward his activities, he said "the people of Virginia and of the nation well know that the newspapers are not animated by a holy zeal for moral betterment, but that their own purpose is to wipe (me) off the slate, by fair means or foul."

Explains Stock Deals.  
Bishop Cannon said his stock transactions with the firm of Kabla and Company began through his acquaintance with H. L. Goldhurst, who he identified as the son of a Jewish rabbi, and that in September of 1927 he had talked with him concerning "the Kabla monthly payment plan for the purchase and sale of securities."

The bishop asserted the Kabla monthly installment plan was not trading on margin.  
He said that he was surprised at the failure of Kabla & Company and greatly regretted it, but added: "After I was given the facts I thought it to be an honest failure in which the greatest loser had been Mr. Goldhurst and members of his immediate family."

Prior to the failure, Cannon said, he requested that all his contracts with the firm be closed, except for one or two hundred shares of Hudson Motors. He explained entries on the books showing large purchases by him, followed by large sales on the same day by saying that Goldhurst made purchases for him which he declined to accept and ordered resold immediately.

Senator Glass to Be Heard.  
LYNCHBURG, Va., Aug. 5.—(P)—Senator Carter Glass said here today that he would give "ample attention" to that part of the latest statement of Bishop James Cannon, Jr., of the Methodist Episcopal Church, South, affecting him as soon as he could detach himself from duties he termed more important.

When shown the statement the Virginia senator was about to leave for Charlottesville where he is to speak tonight before the Institute of Public Affairs on farm legislation.

## PRESIDENT PORTES GIL OF MEXICO TO SUMMARIZE WORK OF MEXICAN ADMINISTRATION

(Continued from Page 1)  
president some time ago recommended eventual prohibition of liquor of high alcoholic content, and several state governors have established prohibitive taxes on establishments selling liquor.

National Labor Law.  
Formulation and presentation to the present extraordinary session of congress of a projected national labor law also will come in for prominent mention in the executive's message. The Labor measure has created more general interest than any other act of the Portes Gil administration and has been equally defended and attacked.

The president, who drew up the project when he was minister of the interior in the Calles government, has asserted it fills one of the country's greatest needs and is one of the outstanding developments of the Mexican revolution.

Extension of facilities for education in the rural districts and several other items of interest will be mentioned in the message.

The present administration has at least one great trial still to face, the task of conducting an orderly general election Nov. 17 falling to its lot. In this election the people will be called upon to select a successor for the provisional president, and the latter has declared that not only will he insure the people's right to vote as they wish, but he will gladly turn over his office to the man chosen.

To succeed him, accepting thereafter whatever post the nation wishes to confer on him, however humble it may be.

There is now no indication of trouble in connection with the election and Gen. Calles, still looked upon as the strong man of Mexico, has judged the situation so promising as to allow him to make a long desired trip to Europe. He is recuperating from a bothersome illness and holding conferences for financial reorganization of the National Railways, a task which the board of directors assigned to him.

break of a Chinese Tong war. Loy Song of New York, member of the Hip Sing Tong, was held on a charge of murder.

Authorities here advanced the theory that the outbreak may have arisen as the result of an opium trade conflict. Opium valued at \$50,000 was seized and 47 Chinese arrested in a raid on the city's Chinatown Saturday.

Outbreak in New York.  
NEW YORK, Aug. 5.—(P)—A Chinese restaurant owner and a negro patron were shot by an unidentified Chinese gunman today in what police feared was a local outbreak of a threatened Tong war.

Government Takes Hand.  
NEW YORK, Aug. 5.—(P)—United States authorities here today took steps to avert a threatened Tong war, first indications of which came yesterday with the killing of a Tong member in Chicago and the wounding of a Chinese restaurant owner here today.

United States Attorney Charles H. Tuttle ordered the national leaders of the On Leong and Hip Sing Tong to appear at his office for questioning.

The last time the government agencies took an interest in Tong affairs more than 100 Chinese were shipped back to China. That was in 1924-25 when more than 70 Tong members were slain in various parts of the country.

## NEW ORLEANS JUDGE WANTS BE MEDIATOR WITHOUT ASSISTANT

NEW ORLEANS, Aug. 5.—(P)—Judge Rufus Foster of the United States circuit court of appeals, today refused to act as mediator in the street car strike with a second man.

In a letter to Acting Mayor Walmsley, Judge Foster said he did not believe any good could come of an attempt to settle the street car strike with two mediators as proposed by the carmen's Union. He explained that in his opinion the mediators would probably differ just as the principals to the strike have done.

Judge Foster said he was willing to serve as a single mediator if both sides to the controversy felt that he could do any good toward relieving the tie-up of street car service in New Orleans.

## STATE HIGHWAY MAINTENANCE FUND TO BE \$8,405,000

AUSTIN, Aug. 5.—(P)—The state highway commission has set aside \$8,405,000 for the maintenance of 18,000 miles of Texas highways during 1929-30, Gibb Gilchrist, state highway engineer, announced today. The sum is practically the same as allowed last year for the purpose.

Of the amount, approximately \$1,000,000 is represented by a contingent fund created for the rebuilding of roads and bridges during flood periods or other emergencies. Maintenance plans for the new fiscal year beginning Sept. 1 will be discussed by division engineers at a meeting to be held in Austin, August 14.

## CHEMIST CLOSELY QUESTIONED ABOUT MURDER OF WOMAN

(Continued from Page 1)  
action to a concoction taken from Miss Hix's stomach. Long testified Saturday that his use of the dogs assisted in determining that an emotional excitement was in the girl's stomach.

The attorney wanted to know if Long had found any antennae in the girl's stomach from an insect used in preparing the excitant the state alleges Dr. Snook gave her. Long replied that he had found such antennae. He added that he had also isolated with a microscope the wings, body and legs of the insect.

Paper In Stomach.  
Long said he took a small piece of paper from Miss Hix's stomach. Later he went to a road side stand near the New York Central rifle range where the girl was killed and bought a sandwich.

He said he then compared the paper in the stomach with the bag in which the sandwich was delivered and found them identical.

Chester had Long identify a piece of waste found near the death scene which contained a few strands of hair.

"Did you compare the hair in the waste with Miss Hix's hair?" Chester asked.

"I did; microscopically they were identical," the witness replied.

Long was excused and John McKinnon, a reporter, identified the gloves on which Long found blood stains as coming from Dr. Snook's

coupe. He also identified a cap, blood stained, as being discovered in Dr. Snook's home and said he had seen stains on the inside of the professors' car.

## ARMY OF NEARLY THOUSAND MEN IN FIGHT AGAINST FIRE

### FOREST FIRES RAGING IN WOODS SECTIONS OF NORTHERN IDAHO

SPOKANE, Wash. Aug. 5.—(P)—An army of nearly 1,000 men today was waging a desperate battle to check the progress of forest fires raging in the timber-like woods of Northern Idaho. Lack of rain, heavy winds and inaccessibility of the forest made their task doubly difficult.

F. H. Brundage, assistant district forester in charge of fire control, declared at Portland, Ore., that about 275 fires had been started in the Pacific Northwest timber country by lightning.

All those in Oregon were reported under control but fires continued to burn in Washington and California.

**Rainfall Brings Relief.**  
WINNIPEG, Aug. 5.—(P)—Heavy rainfall over the week end has brought relief to the fire swept forest areas in Manitoba. Most of the fires, in the northeastern and northwestern sections of the province were under control today after an all day rain Saturday and Sunday.

TORONTO, Ont., Aug. 5.—(P)—The forest fire menace in Northern Ontario assumed a more serious aspect over the week-end, officials of the lands and forests department said.

Three new fires are reported in the Kenora district. A big fire at Kahag Lake which has been burning for several days was still out of control.

**Major Fires Controlled.**  
GRANDON, Wis., Aug. 5.—(P)—Five major forest fires, which raged in Oconto and Forest counties last week, were under control today. In their place, however, had sprung up a series of new and smaller fires, a few of which were characterized as "very dangerous." The new conflagrations are in the vicinity of Silver Lake and along the Peshtigo river.

Those in the latter section are the most serious since they have hundreds of acres of dry slashings, remnants of logging operations, to feed on should they jump the lines of trenches and sand thrown up by the first fighters.

The funeral was directed by the Corley-McMahon Funeral Home.

The funeral was conducted by Rev. G. F. Kornegay, pastor of the Eleventh Avenue Methodist church. Pallbearers were Henry and Robert Boswell and Arthur and Lloyd Bridger.

## DAME MILLICENT FAWCETT, BRITISH SUFFRAGETTE LEADER, PASSED AWAY EARLY MONDAY

LONDON, Aug. 5.—(P)—Dame Millicent Fawcett, British suffragette leader, died here early today.

For 61 years, or, until her efforts were crowned with success, Dame Millicent Fawcett, with voice and pen, fought the battles of the women of England for equal suffrage rights.

It was for her a momentous day in May, 1887, when from behind the grille in the ladies' gallery of the house of commons she heard John Stuart Mill advocate a women's suffrage amendment to the Representation of the People bill.

It was, perhaps, a more thrilling moment in July, 1928, when from an honored seat in the house of lords she heard royal assent given to the bill for the enfranchisement of women on the same terms as men.

In the interim of more than three score years, Dame Millicent devoted her time, her energy, indeed her whole life, to the forwarding of the feminine cause. Imbued with the fire and justice of Mill's speech, she began immediately to educate the public to the new idea by speaking throughout England.

Dame Millicent soon became widely known as a forceful speaker and an accomplished writer, for soon she began her platform arguments she supplemented them with the product of her pen. Her name became identified with the entire women's movement. In addition to woman suffrage, she constantly made higher education of women and the independent employment of women themes of her addresses.

The last of the pioneers in the cause of woman suffrage, Mrs. Fawcett for many years was head of the National Union of Women's Suffrage Societies. She often expressed her disapproval of the militant methods of the Women's Political and Social Union, of which the late Mrs. Emmeline Pankhurst was leader, which were contrary to the aims of her own organization to bring about woman suffrage by the orderly manner of parliamentary action.

"I have been filled with sorrow at the conduct of these misguided women," said Dame Millicent after

a series of suffrage riots. "Our organization always has disapproved of physical force as a means of political propaganda. But the justice and expediency of any cause is not affected by the unwisdom of some of its advocates."

Born Millicent Garrett at Aldersburgh, Suffolk, June 11, 1847, the venerable suffrage leader was the seventh child of Newton Garrett, a justice of the peace. At the age of 20 she was married to the Rt. Hon. Henry Fawcett, widely known political economist and liberal member of parliament, who afterwards became postmaster-general. Dame Millicent's only daughter, Philippa Garrett Fawcett, for several years has been connected with the education offices department of the London County Council.

## BASEBALL PLAYER HELD IN JAIL ON CHARGE OF MURDER

HARRISBURG, Pa., Aug. 5.—(P)—Samuel "Red" Crane, 34, of this city, major and minor league baseball player whose diamond career has carried him into many sections of the country, was in jail here today awaiting the formal lodging of a murder charge.

Crane surrendered yesterday and was held in connection with the slaying of Jack Oren, 28, of this city, and the serious wounding of Miss Della Lyter, 26, also of this city, in a hotel sitting room here Saturday night.

According to police, Crane shot Oren and the girl while under influence of liquor. Two hours after the shooting Crane went to police headquarters and surrendered with the explanation, "I'm told I shot a man."

C. H. Lyter, father of the girl, informed police that she had known Crane and Oren and had, at various times, quarreled with both.

King has served 12 years in the legislature and at present is a member of the commission authorized to make a survey of the penitentiary system with a view to recommending a site for centralization.

He served with the American Expeditionary Forces in France and is a veteran of the Spanish American war.

## FRUIT GROWERS OF VALLEY DISTRICT CONFER ON PESTS

LAREDO, Aug. 5.—(P)—Representatives from a number of fruit growing sections of South Texas were expected to attend a meeting here tonight for discussion of methods to prevent infestation of this section by the Mediterranean fruit fly and the Mexican orange worm.

Congressman John N. Garner and George B. Terrell, commissioner of agriculture, were to address the gathering. It was expected that the meeting would seek to have the federal government appropriate \$1,000,000 to combat the pests.

So far the Mediterranean fly has not appeared in the South Texas citrus groves.

## AGED NATIVE OF NAVARRO COUNTY IS BURIED MONDAY

Mrs. Mary Woolridge, 83, native of Navarro county, died at her farm home north of Wortham Saturday, and the funeral was held Monday afternoon with burial at Wortham.

Mrs. Woolridge was born at Plegah Ridge in 1846 on the old Nash homestead which her father settled in 1845 during the Texas republic.

Surviving are three sons, Lee Byers, Level Land, Texas; Ed Byers and Henry Byers, both of near Wortham; three daughters, Mrs. Benton Bates and Mrs. John Steadman, both of near Wortham, and Mrs. Nora Campbell, Currie; a number of grandchildren and other relatives.

Judge Clay Nash of Navarro county is a nephew of Mrs. Woolridge.

## H. BALDWIN RICE, HOUSTON BUILDER, DIED EARLY TODAY

**MAYOR OF SOUTH TEXAS  
METROPOLIS FOR MANY  
YEARS AND AIDED CITY**

HOUSTON, Aug. 2.—(H. B. Bald.)—Win Rice, 63, member of one of the most prominent pioneer families of Houston and former mayor, died early today at his home at Morgan's Point near here after a long illness.

He was first elected mayor in 1896, and was renamed in 1905, 1907, 1909 and 1911.

His regime as Mayor always will be pointed out as the time when Houston first forged ahead toward metropolitan prosperity and growth. He was known as the moving spirit of Houston's paving plan. He bought the waterworks for the city and reduced the water rate from 40 to 15 cents.

While Rice was county commissioner, the ship canal in the Gulf of Mexico was paved. He was one of the original builders of the ship canal, working incessantly to

**TOR BORAH HAS GOOD CHANCES TO BRING BRITAIN AND U. S. NAVIES TO A PARITY**

CLEVELAND, Aug. 2.—(AP)—United States Senator Charles McNutt today expressed his belief that the United States has all branches of the American navies, and that Senator Borah of the Senate Foreign Relations committee apparently will see British scrap-iron as American building material.

"The United States," he said, "will follow our lead in the Washington conference, sink some of her ships to meet parity," he suggested. "It will not only save the cost of reducing the incentive to increase armaments, but also the incentive to war, partly by parity."

But if we have to pay for parity, it vastly increases the expense of the taxpayers to make the incentive to

## ORGANIZATION IS OUTCOME OF WEEK OF CONFERENCES

### DALLAS MAN HEADS NATION- AL COUNCIL TO AID IN MARKETING CROPS

**BATON ROUGE, Aug. 2.**—(AP)—Delegates to the American Institute Co-Operation in session on Louisiana State University campus today turned their attention to the formation of a national organization of farm co-operatives to serve the farmers in the same manner in which the United States chamber of commerce serves the business man.

The National Union comes as an outgrowth of nearly a week of conferences at the institute and following three days of contact with Secretary of Agriculture Arthur M. Hyde and three other members of the federal farm board on the L. S. U. campus.

As a result of these conferences and contacts, the trustees of the American Cotton Growers Exchange late yesterday moved to further centralize national sales in cotton in conformity with recommendations of the farm board, and a committee was appointed as provided in the agricultural marketing act to speed federal aid for the cotton farmer.

**Texas Temporary Head.**—C. O. Moser, Dallas, Texas, president and general manager of the American Cotton Growers Exchange, was unanimously chosen as temporary president of the council following the ratification of the plan by the delegates to the institute.

Charles W. Holman, Washington, secretary of the institute, and the National Co-operative Milk Producers Federation, was named as acting secretary but selection of other officers was deferred pending conferences with other co-operatives not represented on the organization committee.

Mr. Moser appeared before the institute this morning in the role of chairman of the organization committee for the new unified group and presented a formal report recommending immediate formation of the body with eight great co-operatives represented on the organization committee as a nucleus. This would involve an initial membership in the National Union of more than a million farmers, or nearly a third of the agriculturists of the United States. It was stated on the organization was perfected and that a basis of membership would be worked out for smaller organizations.

## ARMADILLO CAPTURED ON FARM IN POWELL COMMUNITY BY NEGRO

**KERENS, Aug. 2.**—(SP)—Samuel Redd, colored, was exhibiting an Armadillo, which he found in the Elm Flat community Monday morning on the A. W. Hines farm, near Powell, on the streets here Tuesday when Redd discovered the queer looking creature it was in a shallow hole which it probably had dug when it saw the negro approaching. This is one of the habits of the Armadillo. It seems very much out of the ordinary that this animal would be found in this part of Texas, notwithstanding the fact that it is known to cross the border of Mexico into Southern Texas, and is sometimes found in West Texas.

## ANNUAL MEETING OF ODD FELLOWS AND REBEKAH OFFICERS

The annual meeting of the secretaries of the I. O. O. F. and Rebekah Lodges of Texas will be held at the I. O. O. F. Home here Monday, August 12, beginning at 9 o'clock, according to an announcement made Monday afternoon by Ross Harris, superintendent of the Home.

It is expected that there will be between 300 and 400 secretaries present for this annual session.

## Danger Signs Get Next to Nervous Tourist Ramblers

Cold-blooded caution signs seem to jar some folk's nerves. The chamber of commerce has received the following communication from a resident of another city:

"I started down the Dallas-Houston highway by way of Corsicana but after leaving Ennis I saw a large sign on a bridge: Warning—This road under construction; you drive over it at your own risk."

"I have been taken for a jackass for going into a trap I could not see, but never for going into one with a sign over it, so I turned back and went by way of Waco."

"Why don't you put up a sign something like this: 'Welcome; we're building better roads—will help you if you get stuck.' I am giving your town some free advertising."

**LITTLE GIRL IS BETTER.**—KERENS, Aug. 2.—(Sp.)—Dorothy Jean, little daughter of Mr. and Mrs. J. S. Wilson, who was carried to the Navarro Clinic in Corsicana last Wednesday, and who was believed to be in a critical condition at the time, was operated upon Saturday morning for appendicitis, and was reported resting easily by those who visited at the hospital the first of this week.

## ENTERTAINMENT IS ROYAL FOR YOUTHS IN EDISON CONTEST

### THURMAN EVANS SAYS WOM- EN REPORTERS GET BEST RESULTS WITH BOYS

By THURMAN EVANS  
(Texas Representative Edison Contest.)

**SUBURBAN HOTEL, East Orange, N. J., July 31.** (via Air Mail)—My boys certainly have been taming us royally. We have had something to do all the time. There are taxicabs and private cars waiting to take us anywhere we want to go. Everything is "go, go, go."

We were allowed to sleep as long as we wanted to this morning. Then we got up and received our credentials, etc. Several of us went to luncheon with the Kiwanis. The most of the boys went to baseball game and met Babe Ruth personally. I had to wait for the doctor.

Dr. Howell kept each boy long enough to extract his tonsils and adenoids. We all expected a physical examination, but it was all psychological. He examined our temperaments instead of our temperatures.

At about 4 o'clock, several of us were taken to the Branford theatre, where we inspected the cooling system and switchboard, also Vitaphone attachments. The cooling system uses methyl chloride to absorb the heat equivalent of 250 horsepower per hour. Figure that out in B. T. U.

This evening we were given a banquet by the officials of the Edison Contest. I sat next to Mr. Charles Edison, who pointed out the celebrities. Dr. Howell also sat at our table and we argued about the Texas climate. Mr. Edison said Lindbergh had phoned him from Columbus (Ohio) and said he would be in tomorrow. He said they are trying to get a fireboat for us to ride around New York in.

Mr. Thomas Edison came in when we had finished eating. Every one rose and gave him a great ovation. The entertainment was furnished by artists right off Broadway, every one of them headliners. Arthur Welsh, vice president of the Edison Company, and toastmaster, introduced star after star. Their acts included dances by Betty Ackerman and her boys, an act by Jerry, some stories by the originator of the chicken jokes, vocal numbers by a heavyweight "Sweetheart of the Air," and also by Victor Hebert's favorite tenor; some piano selections by Miss Muriel Collock, and over an hour of magic by the great Dunnington. Music during the dinner and later was by the California Ramblers. The Ackerman act consisted chiefly of three fellows throwing Miss Ackerman through the air at each other. They always caught her, however, before she hit the floor. We tried to get Mr. Dunnington to tell us the questions and also the answers to the questionnaire, but there wasn't an answer.

## Limestone County's Cotton Crop Placed At Normal This Year

**MEXIA, Aug. 2.**—(SP)—Limestone and Freestone counties have a normal cotton crop, with some infestation of boll weevil in some sections, a survey by cotton men here shows.

The Coolidge, Prairie Hill, Delta district of Limestone County has one of the finest crops it has had in years and little infestation, while in some sections of the sandy belt weevils are a menace.

Due to the fact that August is the most important month in making the cotton crop estimates run from 50,000 to 65,000 bales, depending on August weather.

## DERRICK IS UP FOR SHALLOW OIL TEST ROANE AREA

Derrick is completed and rigging is now in process on a shallow oil test, northeast of Roane, and work is expected to start in about ten days. It will be the first shallow test in this vicinity, although showings of oil have been found in several Woodbine tests drilled in this area.

The location is in the extreme northeast corner of the Neita Westbrook 150 acre tract. More than 1,000 acres are now under lease in this territory.

J. D. "Doc" Bryant, will be the driller in charge of the test. The block of acreage has been worked up by J. P. Jacks, Jr., J. S. Daniel, Jr., and associates, who plan to make a thorough test of the shallow depths in this area.

## NEGRO DIES FROM KNIFE WOUNDS IN AFFRAY AT FROST

A negro going by the name of "Poor Boy" is dead as a result of a cutting scrape just south of Frost Sunday and Melvin Howard and his wife, Carrie Howard, negroes, are in the Navarro county jail charged with murder in complaints filed before S. B. Jordan, justice of the peace. The arrests were made by Constable C. V. McCord, Deputy Sheriff J. M. West, and Sheriff Hayes went to Frost and investigated the affair.

No details have been secured concerning what the trouble occurred about.

The dead negro was cut on the leg, an artery being severed, his abdomen ripped open and other serious wounds inflicted.

## WILBUR B. HUSTON NAMED AS HIGHEST RATING CONTESTANT

### FOUR OTHER ENTRANTS AL- SO GIVEN COURSES IN TECH- NICAL SCHOOLS

**WEST ORANGE, N. J., Aug. 2.** (AP)—Wilbur B. Huston, a youth from Port Madison, Wash., was named the winner today of the Thomas A. Edison competition for choice of a protege and follower in the footsteps of the inventor.

The forty nine contestants—one from each state and the District of Columbia—were lined up on the lawn of the Edison home in Llewellyn park as the announcement was made by Dr. S. W. Stratton, president of the Massachusetts Institute of Technology, who was chairman of the committee of judges.

Dr. Stratton was high in his praise of the boys, who yesterday participated in a grueling examination on subjects ranging from morals and ethics to science.

It was a tired looking committee that faced the bright and fresh looking boys on the lawn. Dr. Stratton said they poured over the examination papers until 3 o'clock yesterday. The high rating attained by each of the contestants made the job of picking the winner a hard one.

It was recalled that Huston, 16 year old and the son of the bishop of the Episcopal diocese of Seattle, was the last to finish the test yesterday. A rousing cheer greeted the announcement of his victory and the tall, bespectacled boy was lifted to the shoulders of the other youths and carried twice in a circle around the lawn.

Huston will receive a four year course, with all living and incidental expenses paid, in the institution of his choice. He decided upon chemical engineering in the Massachusetts Institute of Technology.

The committee announced that four boys, who rated high in the examinations, would be given scholarships of four years in technical institutions. They were Charles A. Brurissen, of West Redding, Conn.; Ivan A. Gettling of Pittsburgh; James Seth, Santa Fe, New Mexico; and Bernard Sturges of Butler, Ind.

Huston's average in the test was 92. The other four averaged between 82 and 92.

**Seattle High Graduate.**—SEATTLE, Aug. 2.—(AP)—Wilbur B. Huston, 16, named today as winner of the Thomas A. Edison scholarship contest, was the youngest of nine youths chosen for the finals of the state contest and was named state winner by Dr. N. D. Schowalter, superintendent of public instruction.

Huston was graduated from high school in Seattle last June, just a week before he was named as this state's representative in the national contest.

Charles Edison, son of the inventor and a member of the advisory committee, announced that "in fairness to the boys" none of the answers to the examination questions would be made public. They will be looked in files, possibly for the inventor's reference in the future.

## Kosse Man Heads Exhibit Committee Limestone County

**MEXIA, Aug. 2.**—(SP)—W. H. Kosse of Kosse has been named chairman of a special committee of the Bi-Stone Association of Chambers of Commerce to arrange exhibits in the state fair at Dallas, the Bi-Stone empire fair at Mexia, and the Cotton Palace at Waco, showing the agricultural resources of Limestone and Freestone counties. E. H. Broiles, president of the association, has announced.

Other members of the committee are: C. E. Bowen, Teague; Rufus Peoples, Tehuacana; T. T. Drumwright, Wortham; T. E. Lewis, Groesbeck; Miss Vera Evans, Groesbeck, and the county agent of Freestone county to be appointed soon.

## COURTHOUSE NEWS.

**County Court.**—A verdict favoring S. Z. Burke in the case of Navarro county vs. S. Z. Burke on the condemnation proceedings for lands on the Corsicana-Roane lateral road in consolidated road district No. 1, was returned late Friday by the jury, amounting to \$380, according to announcement Saturday morning.

The case was tried before Special Judge W. W. Harris and it took four days to try the case. It is understood that this is considerably more than Mr. Burke offered to compromise for with the county.

**Commissioners' Court.**—The Navarro county commissioners' court is scheduled to meet in a special session Monday morning.

**Sheriff's Office.**—Nine negroes and two negroesses were arrested about 9 o'clock Friday morning by Deputy Sheriff V. McMurray and Alton Bradley in a raid on South Twelfth street. A small amount of beer was confiscated. Bertha Hornbuckle, was charged by complaint in Judge C. B. Jordan's court with violation of the prohibition laws and the other ten will face vag charges. All were lodged in the Navarro county jail.

**Constable's Office.**—John Cyrus, negro, was arrested Friday afternoon and charged by complaint in Judge S. B. Jordan's court with forgery in connection with the alleged attempt to pass a forged check for \$12 at K. Wolens on J. N. Edens, Jr. Wolens became suspicious and called an officer by complaint in Judge Constable J. J. Howard.

Officers stated Saturday morning the accused negro had made a statement in the matter. The negro was still in the county jail Saturday morning.

We were shown through the radio assembly plant, the phonograph plant, the Ediphone plant (where we were allowed to make a record of our voices), the Edison storage cell plant, the toaster plant (where we were presented with a toaster apiece), and through the laboratory. The laboratory smelled like rubber and Edison, himself, was in there performing some experiments.

The Edison industries are a marvel of automatic machinery. A comparatively small number of people are used and they are constantly working on more automatic machinery in the machine shop. In a room where all the workmen were men I noticed an "Al Smith" sign. In an adjoining room occur-

ing with women a sign said, "This is a Hoover house."

About 4:30 we went for an automobile ride. We were escorted by a whole flock of motorcycle cops. They stopped all other traffic at every side street. One of them fainted and fell off his motorcycle. It was the heat and excitement.

Last evening we dined at Rock Springs country club. The committee were guests and all the entertainment was informal and furnished by the guests. Theodore Edison and Col. Lindbergh pulled an amusing card trick.

We were given a questionnaire which they said was like Mr. Edison's. I wish you could read it. I talked quite a lot with Henry Ford's private secretary and got some inside dope on Ford, Edison and Lindbergh.

Some of us then went out to the airport where we saw Lindbergh's plane which he had smashed up coming in. They turned on flood lights and gave a demonstration of night-flying for our benefit. They wouldn't take us up before the test.

John Nolan of Barry spent a few hours in town Monday morning attending to business.

## WORLD CELEBRITIES MINGLED WITH LADS IN EDISON CONTEST

### WATCHES EDISON EXPERI- MENT AND LINDBERGH DO CARD TRICKS

By THURMAN EVANS  
(Texas Representative of Edison Contest)

**SUBURBAN HOTEL, East Orange, N. J., Aug. 1.**—(via air mail)—I haven't enough paper to tell all that has happened yesterday, but I will enumerate a few details.

We got up early and ate breakfast, after which I demonstrated the intricacies of the Yo-Yo to several boys who had never seen one before. Then we took buses for the Edison plant. Col. Lindbergh, Mr. Ford, Dr. Perry and Mr. Edison all arrived soon after. The fence and road was lined with people. The police had trouble keeping them back. They wanted to see Lindbergh. His wife was with him.

We marched out and were seated in front of the canopy under which sat the committee. The program was broadcast, but the master of ceremonies wouldn't stay in front of the mike. They had to push him back and forth.

Our radios were presented and all turned on at one account, like home except that all were on the same station.

While we were waiting the canvas of the press box caught fire. The reporters and photographers all left, but they came back when the fire was out. The movie cameramen were above them and could not get down.

We lunched at the Mushroom Farm as guests of the Rotary. Here I met Mr. John McManus, who visited Corsicana while at the Rotary convention. He is the second man I have met who had come seventy miles to see me.

Every now and then some one comes up, introduces himself and says he used to live in Texas or has heard of Texas or something. When we were back to the Edison plant, I heard someone say, "We didn't see Lindbergh, but here's Texas. That's where the cowboys come from."

We were shown through the radio assembly plant, the phonograph plant, the Ediphone plant (where we were allowed to make a record of our voices), the Edison storage cell plant, the toaster plant (where we were presented with a toaster apiece), and through the laboratory. The laboratory smelled like rubber and Edison, himself, was in there performing some experiments.

## Man Is Held For Alleged Car Theft

A white man was arrested Thursday by Corsicana and Kerens officers and charged with theft of an automobile from E. N. Rytle Wednesday night. He was transferred to the county.

H. P. Inman, 810 South Eleventh street, reported to police headquarters that an automobile tire was stolen off his car while it was parked in front of his residence Wednesday night.

## HOUSE AND BARN AT BLOOMING GROVE CONSUMED BY FIRE

**BLOOMING GROVE, Aug. 3.**—(Sp.)—Fire of undetermined origin destroyed the house and barn of J. J. Hargrove about 8:30 Friday night. All contents of the house and barn, and all farm implements were destroyed. It is thought the damage will be around \$4,000 to \$5,000 with no insurance.

The Hargrove family was away from home.

## FURNITURE—LIGHTING

### DAVIDSON ELECTRIC CO.

Lighting Furniture is displacing Lighting fixtures, and properly so. The name Lighting fixture, has become obsolete.

The phrase Lighting Fixture harks back to the days of the ugly, ungainly, gas fixtures, which were so clumsily made that they had to be securely fastened to the gas pipes, and thereby became a fixture. They actually were "fixed" so securely, that in the minds of the people, the designation "fixture" was the correct means of identifying them.

They were also "fixtures" in another sense because of their great cost, they seemingly were fixed for life, so that in those days even people of considerable means would rather repair or repaper and buy new draperies, but the old fixtures remained.

With the advent of electricity, the construction of lighting-equipment has gradually undergone a remarkable change, making it less costly, prettier, more easily installed, or removed, so that it is now recognized and admitted that "Lighting Furniture" more correctly designates the beautiful designs that grace the lovely homes of those who give study and thought to creating an atmosphere of charm and comfort.

The public and especially the ladies, strive for that charming effect that is the result of the harmonious blending of furnishings and illumination, so that today, when a change is decided upon in the furnishings of a room, or several rooms, the old fashioned lighting equipment is discarded, and modern artistic "lighting furniture" is installed.

If you contemplate building or remodeling, or simply furnishing a single room, give serious consideration to the Lighting Furniture. Be sure the outlets are properly

## CORSICANA BOY IN NAVY WRITES HIS CHINA IMPRESSIONS

The following excerpts from a letter written from Chefoo, China, by Tom Hips, to his brother, Joel Hips, of Corsicana are very interesting at this time, when China is attracting so much attention because of its threatened war with Russia.

"If you were here with me now you could smell what is called the Oriental odor. I held my nose most of the time on my first visit, but now it don't seem to bother so much—used to it, I guess. The first thing you would see in Chefoo is lousy, mangy dogs, and lousy, dirty, ragged Chinamen beggars, who lay on the sidewalk and bounce their heads on the curb or on a stone until their heads are bloody all over; you can hear them for

blocks. They do that to try to make a foreigner take pity on them, and give them money.

"There is also what is known as a beggars' association in this strange country. For instance, if a Chinaman starts a clothing store next to some other Chinaman in the same business there will of course be competition, so the older man in business will call the beggars' union and hire two or more beggars to stay in front of the rival's store so consequently no customers patronize the rival and he goes out of business.

"Before I came out here I always thought all people of a certain nationality were equal, or of the same caste, or class, but it was a lot of baloney. One ricksha ride in China will convince you to a different point of view. A Chinese coolie is supposed to receive twenty cents per hour for his labor, but you can pay them a dollar an hour and they will always ask for more—in other words they are about ten degrees lower than their dogs, because a dog will take what you give him and wag his tail.

"Chinese people who own busi-

nesses are dressed different; they wear robes, marry at 12 years of age, and do not select their own brides.

"If a Chinaman commits a crime not bad enough for beheading penalty, he is sentenced to the river for the rest of his life. He and his family live in a small boat called a 'sampaan.' They are allowed three hours a week on the beach.

"Just imagine how lucky we Americans are, boy. I have learned one thing in this country that I will never forget, and that's what a good old country the U. S. A. is. No talkies out here—and—yes, we have no bananas' is the latest song hit."

## PROMINENT KERENS FARMER GETS FIRST AND SECOND BALES

KERENS, Aug. 2.—(Spl.)—J. L. Whorton, prominent Kerens farmer and land owner, has the distinction this year, of bringing both the first and second bales of cotton to Kerens.

The second bale was ginned at the Anderson & McClung gin Monday morning at 11 o'clock, and weighed at the Kerens Warehouse company. The weight of the bale before ginning was 1,400 pounds, giving a turn-out of 475 pounds. The premium which was subscribed by the Kerens merchants and Chamber of Commerce amounted to \$55. Mr. Whorton having received the first premium also which was \$65. Thursday the owner had not sold the cotton. He received 20

cents per pound for the first bale, and \$20 for the seed.

Mr. Whorton stated that he had already brought four bales of cotton to Kerens, and that there were several bales still open in the fields. The farm from which this cotton was picked is located just outside of the city limits, east of town.

Another distinction held by Mr. Whorton is that the first bale of cotton for Trinidad was gathered from his farm there by Willie Moore, tenant.

It was reported that Mr. Moore carried the whole bale to Athens, being the first bale of cotton ginned in that city, but the E. M. Forehand, Trinidad farmer, formerly of Kerens, had his first bale ginned in Trinidad, and reached Athens in time to have the first bale weighed in that city, thereby receiving the premium. Mr. Moore received 20 cents per pound for the staple. He is also a former resident of this city.

## CONTRACT IS LET FOR DRILLING OF MASON TUPELO TEST

Contract for a turnkey job on the A. J. Mason test a mile and a half northeast of Tupelo has been let to Ed Hewitt of Rockdale, Texas, according to information received Saturday. A crew is now engaged in rigging up and drilling is expected to start within a few days. It is planned to push the test down to the Woodbine as soon as possible.

It is reported that several major companies have bought acreage about the new test.

Promoters of the well will test any shallow sands that are encountered.

## Blooming Grove Gets First Bale

BLOOMING GROVE, Aug. 2.—(Spl.)—The first bale of 1929 cotton in this community was received late Friday afternoon and was produced by Johnnie Brown, colored, on the B. W. George farm. The bale weighed 465 pounds.

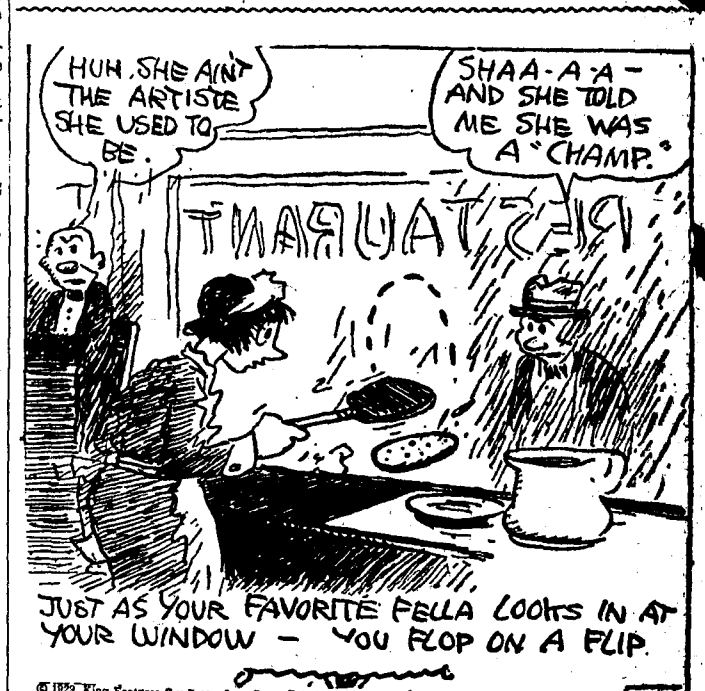

A good premium was raised among the merchants of Blooming Grove and given the farmer. The cotton has not been sold.

## Hubbard Community Fair Dates Named

HUBBARD, Aug. 3.—Hubbard Community Fair will be held September 12-13-14. This will be a few days prior to the Hill County Fair at Hillsboro and the Hubbard fair exhibits will be entered in the county fair.

More attention is being given to the various phases of dairying, this year than in former seasons as the community is especially interested in the development of this industry.

## CONVICTED SLAYER OF MATHIS DOCTOR PAYS FULL PENALTY

REQUESTED THAT SHOES BE  
REMOVED AFTER BEING  
SEATED IN DEATH CHAIR

HUNTSVILLE, Aug. 2. (AP)—Out in the cow country of Southwest Texas where Harry J. Leahy grew to manhood if a man died with his boots on he died a violent and very likely a disgraceful death.

When Leahy went to the death chair, a state prison shortly before one o'clock this morning for the slaying of Dr. J. A. Ramsey of Mathis, his last act was to have his shoes removed.

He walked erect and composed to the electric chair and sat down after declining to say anything to the little group of witnesses. Prison officials tried to buckle the straps and electrodes.

He stirred slightly and motioned for Captain Homer Knight, assistant warden.

Knights stepped forward and leaned over. Leahy whispered something and Knight dropped to his knees and took off the sandals Leahy was wearing.

During the calmest man who ever walked through the little green door of the death chamber, prison officials said.

Leahy spoke but little during his last hours. In the afternoon he discussed his case briefly with prison officials and newspapermen.

"I don't want the report to get out I confessed," he said. "I was convicted on circumstantial evidence and the testimony of a Mexican," he said, referring to Roberto Martinez, a former employee whose testimony helped send Leahy to the chair.

During the afternoon Mrs. Leahy visited him.

Gradually the shadows lengthened on the prison walls and time for the evening meal came, but Leahy asked for a chicken dinner "with trimmings."

"I hope for a break," he said. "Nine o'clock came and no word of comfort. The prison barber shaved his head clean for the death cap."

Hope Short Lived.

Hope rose in the towering rancher's breast as Gov. Moody called prison officials a few moments before midnight and told them to stay the execution 30 minutes. It was short-lived, however, as the governor called back five minutes later and ordered them to proceed.

The stay was granted to give Judge Scott of Waco time to act on a last frantic appeal of Leahy's lawyers for an injunction to stop the execution on the grounds that the Georgetown verdict was invalid. The Waco judge refused.

Arrested Long After.

The aged Mathis physician whom Leahy was accused of killing disappeared in May, 1926. Leahy was arrested until four months later.

Martinez said he was hired by Leahy to lure Dr. Ramsey to his death. The Mexican claimed Leahy made the doctor sign seven papers before torturing and murdering him.

Leahy was assessed a \$10,000 fine and sentenced to 10 years in prison. He was released on \$10,000 bond.

## SCHOLARSHIP HONOR ROLL OF T. C. U. HAS NUMEROUS NAMES

FORT WORTH, Aug. 2. (Sp.)—The names of 329 students appear on the scholarship honor roll of the Texas Christian University for the spring semester, 1928 and 223 girls, according to an announcement from E. R. Tucker, registrar of T. C. U.

Of the total, 83 are freshmen, 66 sophomores, 67 juniors, 88 seniors, 20 graduate students and 5 special students. Thirty students made a perfect grade of "A" only 4 of an average of 85 or better.

Two hundred and eighty-seven students were on the honor roll for the entire year.

The names of three athletic captains are included on the honor roll: Howard Grubbs, Kemp, baseball captain this year; Marvin Norman, Fort Worth, track captain this spring, and John McDermid, captain-elect of the tennis team.

A student to be eligible for the honor roll for a semester must be carrying at least nine hours in subjects that count toward a degree, make an index grade of 80 or an average of 85 or better.

Each subject carried. To be eligible for the yearly roll a student must carry at least 18 hours in addition to the other qualifications.

Many of the students are from other parts of the state.

Gradually the shadows lengthened on the prison walls and time for the evening meal came, but Leahy asked for a chicken dinner "with trimmings."

"I hope for a break," he said. "Nine o'clock came and no word of comfort. The prison barber shaved his head clean for the death cap."

## THREE DEAD, THREE SERIOUSLY ILL FROM POISONED FLOUR

NEIGHBOR OF LOUISIANA  
FAMILY HELD IN CON-  
NECTION WITH FATAL PLOT

MONROE, La., Aug. 3.—(AP)—Three are dead here and three others seriously ill from eating biscuits made of flour in which it is believed poison had been placed.

Mrs. E. L. Wallace, 35, wife of a farmer living four miles east of Kilbourne; her son, Bruce, 9, and W. Brakfield, 65, who live at the house, are dead and the three others and his two other sons are in a critical condition at Oak Grove, the parish seat.

Sheriff W. E. Smith of West Carroll has arrested Oliver Leonard, 40, neighbor of Wallace, and two negroes, C. P. Pownell and Burnie Pownell, as suspects.

Sheriff Smith said he found finger prints of the three men on the flour sack and a trail of the poison led to a flour sack in the kitchen of the Wallace home.

The flour was used by Mrs. Wallace to bake biscuits for her family breakfast. Immediately after breakfast all six became violently ill.

A neighbor who came to the farm home early yesterday found the three men lying on the floor.

Dr. P. N. Pulley, West Carroll coroner, returned a verdict of "poisoning resulting from an act of a person or persons unknown."

The Smiths said he expected to make a fourth arrest during the day. Those arrested today denied any implication in the case.

## BOTH INDIVIDUAL AND COLLECTIVE EFFORTS NECESSARY

### PRESIDENT OF EAST TEXAS CHAMBER "PRACTICES WHAT HE PREACHES"

LONGVIEW, Aug. 5.—(Sp.)—Both individual and collective effort are necessary for maximum community and regional development, in the opinion of Judge Hayne Nelms, president of the East Texas chamber of commerce, who "practices what he preaches." As president of the regional chamber of commerce that serves Eastern Texas, Judge Nelms directs the co-operative efforts of a united East Texas, and as a private citizen and landowner, he has assisted many worthy tenant farmers to farm ownership.

More than 4,000 acres of his considerable holdings of farm lands and cut-over timberlands in Trinity and Houston counties have been sold by Judge Nelms to farmers at low prices on liberal terms. Much of the land sold has been in cultivation at the time of the sale, and all has been as fertile as is to be found in any part of the country. Small down payments, with ten years to pay the remainder, and with interest at 6 per cent, have been the rule with Judge Nelms in disposing of his land.

**Pay With Crops.** Most of the farm buyers pay for their places from their crops before the period of grace is well started. Often the farmer has little to offer in the way of initial payment except a name for honesty and industry.

"It is my opinion that large landowners should place their undeveloped lands on the market at terms attractive to the actual farmer," said the president of the East Texas chamber of commerce. More of our East Texas tenants should be assisted to farm ownership, and we should hold forth inducements to other farmers from the older agricultural sections.

"As far as I personally am concerned, if a good man wants one of my farms, he can have it. If he is a worker, I don't have any fear of his ability to pay it out. Our highly productive East Texas soils, ample rainfall, and benign climate will take care of the other factors."

**True East Texan.** Being a native East Texan, Judge Nelms has the development of East Texas as one of his most cherished ambitions, and for years he has been working for the advancement of his community, his section and his state. He was born near Pennington, Houston county, Sept. 30, 1869, and with the exception of a brief residence at Ardmore, Okla., during the early part of his legal practice, he has lived continuously in Houston and Trinity counties.

As the representative from his district, Judge Nelms served in the Twenty-eighth and Twenty-ninth legislatures. He was vice chairman of the judiciary committee in both legislatures, and was chairman of the education committee in the Twenty-ninth legislature. He was vice president of the State Democratic convention that nominated Thomas M. Campbell for governor, and the office of district attorney and district judge were tendered him by Gov. Campbell, both were declined because of his private practice.

Judge Nelms has served his county and his town in a number of public and civic capacities in the same efficient and unselfish way in which he is serving East Texas as president of the East

### Bob Miller Thankful For Many Kindnesses

My friends and strangers have been good to me during my long sickness, for which I am glad. Many came to see me. Many thought of coming. Many said the good word. Many brought me those beautiful flowers. Many gave me and are giving me those wonderful car rides. Many showed and are showing me those wonderful kindnesses.

If I never repay these, probably someone else will.

I hope my health, strength and eyes will soon be good.

I thank you.

Wishing you, your family, and your friends good health, much happiness, long life and great prosperity.

Your friend, BOB MILLER.

## HEAT INTERFERES WITH ATTENDANCE FIRST METHODIST

The excessive heat of Sunday cut into attendance figures at the First Methodist church and Sunday school in spite of the fact that with plenty of fans the various Sunday school departments and the church auditorium were among the cool spots of the city.

In Sunday school the attendance was 425, last Sunday 500 and Sunday one year ago 494. In the Brotherhood class the attendance dropped from 61 last Sunday to 42; in the Young Men's class the attendance was 18 while in the Mothers' class 43 were present.

In the adult department, A. A. Allison presided and Charles Banister, Jr., made the principal talk; in the Brotherhood class C. T. Banister presided, and F. P. McElwath taught the class; in the high school department Boyce Martin made a talk.

At the morning church hour, Edward F. Hearn, choir director, sang a solo; the choir sang an anthem; the baby son of Mr. and Mrs. Edens Hyndman was baptized; Dr. Culver preached his regular monthly sermon to children, and communion was observed.

Rev. G. W. Kincheol, who has been sick for some time, was able to assist in communion services. At the night church hour, Dr. Culver preached from the subject, "A Great Purpose," and the choir sang an anthem.

Among the announcements made by the pastor Sunday morning was the regular monthly meeting of the Workers Council for Monday night at 8 o'clock, and regular prayer services for Wednesday night.

In spite of the heated term and vacation time the church and Sunday school are carrying on in all departments. Sickness as well as vacation time has also decreased attendance figures. Dr. Culver at the morning hour calling attention to the many sick he had visited during the past week, some of whom had been critically ill.

### CARD OF THANKS

We want to thank the people of Emhouse for being so good to our sister, Mrs. Adella Shelton, wife of Joe Shelton, during her long illness of seven months. We also want to thank the ladies for the nice dinner her last day with us, also we thank Dr. Brinkley very much for being so faithful to the end; he did all that could be done; also we want to thank each and everyone for the beautiful flowers; thanking the men who arranged the beautiful grave which awaited for her to be laid in her place of rest. Everything was arranged so beautifully. We can't express enough thanks, but God's blessing will come to all some day. If in need we are willing to help in any way.

MEXICO CITY, Aug. 5.—(P)—Permission for issuance of tourists' cards for entry into Mexico has been granted by the department of the interior to the chambers of commerce of Brownsville, Mercedes, Roma, Hidalgo and Zapata, Texas, the department announced. The chambers formerly were granted to the Laredo chamber. Provisional cards will be used until the government can issue a permanent series. The cards will entitle the bearer to remain in Mexico for six months, visiting any part of the country desired.

## New Manager Here For Hicks Rubber Company Arrives

C. S. Mansfield, for four years manager of the Hicks Rubber company's store at Temple, has arrived in Corsicana to take charge of the Corsicana store of this big tire distributing concern. Mr. Mansfield comes highly recommended as a successful business man and a courteous gentleman as well. He is a member of the Temple Rotary club and is interested in the civic development of any town in which he casts his lot. He is also known as a first-class tire man.

Elmo Blake, who has been in charge of the Corsicana store temporarily, will still remain with the local store.

## Ancient Receipt In House Organ

In the August number of Armour Magazine there appears the reproduction of an old cash receipt under the caption of "Here's One For You, Old Times!"

The receipt is dated December 16, 1908, and is to the Corsicana National Bank. It bears the signatures of J. C. West, Armour cashier, and C. A. Gordon.

The voucher is explained as follows: "Here's an old cash receipt taken from the files of Armour-Corsicana, Texas by cashier John J. Cain and sent in by him to the Armour Magazine because of its possible interest to many old time cashiers, who will remember the form used. The cashier at Corsicana when this receipt was made out, was J. C. West, now one of the Armour and company's best customers in that city. He is a part owner of one of the big food retailing stores and of course is partial to Armour because he knows their quality and value. A. B. Douglas, Jr., was manager of the branch at that time, through his signature is not shown, is still manager of Corsicana. So far as we are aware of Corsicana, the auditor whose green ink check appears on the face of the receipt was Rex Hartwell, who is now with Armour South American interests in La Plata."

## PUBLIC PURCHASE OF SAENGER-DENT CIRCUITS RUMORED

Change in ownership of the Dent Theaters, Inc., is persistently rumored in Dallas according to an article appearing in Sunday's issue of the Dallas News.

Leslie Wilkes, local Dent representative, stated this rumor had prevailed for sometime but could not say whether the deal had yet been completed. Mr. Wilkes indicated that he expected to retain his interests in the local theatres regardless of the outcome of the rumored sale.

The article appearing in the Dallas News Sunday follows: "The impression now prevails on Dallas amusement row that Public Theaters, Inc., subsidiary of Paramount-Famous-Lasky Corporation, has completed the long-reported deal for the acquisition of the Saenger Amusement company, headquarters in New Orleans, and Dent Theaters, Inc., with headquarters in Dallas. The sum involved in the Saenger deal has been reported variously from \$13,000,000 to \$15,000,000 and in the Dent deal from \$1,500,000 to \$3,000,000.

The purchase would pass the Old Mill and the Arcadia theaters into the Public organization, which now includes the Palace and the Melba. Public has had a 50 per cent interest in Saenger for several years and Saenger a 50 per cent interest in Dent. According to reports, neither the Old Mill nor the Arcadia would group immediately under the Public organization here operating the Palace and the Melba theaters.

"E. V. Richards, general manager of the Saenger Amusement company, is due for an assignment in the Public home office to operate the theaters that have been under his jurisdiction in the past. Fifteen years ago he was house manager for the Queen theater in Dallas."

The Saenger Amusement company controls more than 100 houses in Texas, Louisiana, Florida, Arkansas and Alabama and the Dent circuit has sixty-three theaters in Texas and New Mexico, with the Arcadia, on Greenville avenue at Sears street, as the only operation in the headquarters city."

## Mexia Military Unit Goes to Encampment

MEXIA, Aug. 5.—(SP)—Company B 148th Infantry, Mexia's national guard unit, left late Saturday for Palacios, Texas, under command of Captain Aubrey A. Kindred for the annual encampment of the guard. The full company of 65 officers and men boarded the train and there was an extra man for good measure.

Other officers were First Lieutenant John A. Hearne of Wortham, and Second Lieutenant Lewis E. Wadde of Mexia.

Upon return of the company in two weeks Captain Kindred will resign his commission to leave for Cleveland, O., to take a position with the Continental Air Transport company, of which his brother, Herbert L. Kindred, noted Texas aviator, is superintendent.

## Kerens Received Thirty Bales of Cotton Last Week

KERENS, Aug. 5.—(Sp.)—Kerens had received 30 bales of cotton up to Saturday night. Several farmers engaged hands to start picking Monday.

It's expected at least 500 bales will be ginned at Kerens this week on account of the hot weather. From reports of gin men and farmers the crop is expected to be smaller than last year, with not over 15,000 bales, compared with 19,000 last year.
